

"The Magic Science Circus!"

Arthur Atsma presents an all new interactive educational program that demonstrates (using the scientific method) Newtonian physics through the performance of circus stunts and sleight of hand magic.

Join ringmaster/magician/educator/circus scientist, Arthur Atsma and volunteers from the audience and witness the magic of science! Learn as they turn juggling, plate spinning, table floating, and many more stunts and tricks into a science lesson that demonstrate the laws of motion, including gravity, inertia, velocity, centripital force.

Program is age adjustable k-8!

Call today to book the most exciting educationally significant show on earth!
